Differential analysis of N-glycopeptide abundance and N-glycosylation site occupancy for studying protein N-glycosylation dysregulation in human disease

Qi Zhang Cheng Ma Lian Li Lih-Shen Chin

Updated date: Dec 30, 2020

An abbreviated version of this protocol was published in Science Advances in Oct 2020

Integrative glycoproteomics reveals protein N-glycosylation aberrations and glycoproteomic network alterations in Alzheimer's disease

DOI: 10.1126/sciadv.abc5802
